Professional Summary

Full-stack developer with strong expertise in UI/UX design and a proven track record of creating seamless user experiences. Skilled in React, Flutter, MongoDB, Node.js, Express.js, Python, JavaScript, and API integration. Experienced in developing scalable backend systems, AI-powered applications, and designing intuitive user interfaces.

Education

Toc H Institute of Science and Technology

2022–2026

Bachelor of Technology in Computer Science

CGPA: 7.6

Professional Experience

Gooseberry Media — Intern

2 weeks

- Spearheaded the development of a fully responsive book reselling web platform thebookshelf.obio.in using HTML, CSS and JavaScript.
- Contributed to reducing environmental degradation by facilitating the reuse of books, which can save approximately 7.5 kg of CO emissions per book compared to new production.
- Contributed to the platform's goal of promoting sustainable reading habits by encouraging the reuse of books.
- Collaborated with cross-functional teams including UI/UX designers and product leads to enhance user journey flows, resulting in improved navigation and a consistent visual language across pages.

Projects

- **Canfinity** *Technologies: Flutter, MongoDB, FastAPI, Figma, API Integration*
 - Canfinity is an AI-powered health companion app designed for cancer survivors, offering personalized diet and workout plans, mental health chatbot support, and smart reminders for medications and chemotherapy sessions — all in one place to help you heal, grow, and thrive with confidence.
- **Personal Portfolio Website** *Technologies: React, Figma*
 - Designed and developed a responsive personal portfolio website using React.js, showcasing skills, projects, and professional background in a clean, modern UI.
- **Memory Sharing App** *Technologies: React, Express.js, Node.js, MongoDB, Figma*
 - Developed a Mern Stack app for sharing memories with a group of friends.
- **Hagana(Hackathon Selected)** *Technologies: Flutter, API Integration, Figma*
 - Developed a Flutter-based app to support individuals struggling with drug addiction and help them in their recovery journey.
- **Library Management System** *Technologies: HTML, Tailwind CSS, Node.js, MySQL*
 - Developed a Library Management System that helps organize books and manage interactions between librarians and users.

Technical Skills
